PETITION UNDER 37 CFR §1.84(a)(2)

Sir:

Applicants respectfully request that color drawings be accepted for inclusion in the above-identified patent application. In accordance with 37 CFR § 1.84(a)(2), Applicants submit herewith the petition fee of \$130.00 as set forth in 37 CFR §1.17(h), three sets of formal color drawings (Figs. 95-98), a full set of formal black and white drawings (Figs. 1-100), including black and white photocopies of the color drawings, and an Amendment to the specification to include an appropriate statement in the brief description of the drawings regarding the color drawings.

The present disclosure describes variable color illumination systems and methods, and various effects that changes in illumination color can have on the appearance of one or more objects illuminated by variable color light. Applicants have included color drawings for Figs. 95-98 to graphically illustrate how the appearance of an object may change as the color of illuminating light changes. Applicants submit that black-and-white drawings fail to adequately

describe and clearly convey the interplay between colored illumination and objects illuminated thereby. Accordingly, Applicants request that the above-identified application issue with the colored drawings filed herewith.

If there are any other fees due in connection with the filing of this petition, please charge the fees to Deposit Account No. 50/2762. Should there be any questions after reviewing this petition, the Office is invited to contact the undersigned attorney.

Respectfully submitted,
Ihor Lys, et al., Applicants
